PANELLIST BIOGRAPHIES

Prof Stephen Colagiuri
IDF Vice-President

Prof. Colagiuri has had a professional interest in diabetes for over 35 years and has worked as a clinician, academic and researcher across a broad range of settings. He is currently Professor of Metabolic Health, Director of The Boden Institute and Solutions Domain Leader at the Charles Perkins Centre at the University of Sydney, as well as Co-Director of the WHO Collaborating Centre on Physical Activity, Nutrition and Obesity. His research focuses on diabetes and obesity prevention, economic aspects of diabetes and obesity, and diabetes care delivery.

Prof. Colagiuri has served as President of the Australian Diabetes Society and in advisory roles to WHO. He has been actively involved in IDF activities for many years, serving as Chair of the Clinical Guidelines Task Force, Deputy-Chair of the IDF Diabetes Atlas Committee (2018-19), Editor-in-Chief of the IDF journal, Diabetes Research and Clinical Practice (2008-2016) and Vice-President (2018-19).

In 2017, Prof. Colagiuri was made an Officer of the Order of Australia (AO) for national and international services to diabetes.

Dr Bente Mikkelsen
NCD Director

Dr Bente Mikkelsen is Director, Noncommunicable Diseases in the division of UHC/Communicable and Noncommunicable diseases, World Health Organization Headquarters (WHO), Geneva, Switzerland. She was formerly Director, Division of Noncommunicable Diseases and Promoting Health through the Life-course at the WHO Regional Office for Europe (Copenhagen, Denmark), Head of Secretariat for the Global Coordination Mechanism on the prevention and control of noncommunicable diseases (WHO GCM/NCD) at WHO Headquarters (Geneva, Switzerland) from its inception in 2014 as well as a former CEO of the Southern and Eastern Norway Regional Health Authority.

Dr Mikkelsen is trained as a Gynaecologist and Obstetrician and holds a Master’s degree in Health Administration and Management from the University of Oslo. Her current focus is on achieving the SDGs through the reduction of premature deaths from NCDs in the context of WHO General Programme of Work, and working across sectors with multistakeholders, within and beyond the health sector using innovation, implementation research, health literacy and new technologies.
Dr Slim Slama
Unit Head, NCD Management-Screening, Diagnosis and Treatment, WHO Switzerland

Slim Slama is an Internal Medicine specialist with an interest in non-communicable disease management. After graduating from Geneva University Medical School in 1998, he worked as a clinician for 17 years at the University Hospitals of Geneva (HUG), Switzerland.

Prior to joining WHO headquarters, Dr Slama started at WHO in 2014, at the Regional Office for the Eastern Mediterranean, based in Cairo, Egypt. Successively, assuming the positions of Medical Officer and then of Regional Adviser, he spent 7.5 years in charge of Noncommunicable Diseases Prevention and Management Units, in the Noncommunicable Diseases and Mental Health Division (NMH).

During his tenure at WHO EMRO, Dr Slama provided strategic and technical support to the twenty-two Member States of the region, supporting them in scaling up their efforts to better prevent and control noncommunicable diseases (NCD). From the development of multisectoral NCD action plans to the integration of NCD in primary health care, he covered a very large portfolio and progressively contributed in building the NCD team at EMRO. Part of his work was dedicated to strengthening WHO normative and technical support to countries affected by humanitarian crises.

Dr Slama is now in charge of the NCD Management Unit, in the NCD department, WHO Headquarters, responsible of a large portfolio focusing on the early detection, diagnosis and management of several major NCD, such as cardiovascular diseases, cancer, diabetes, chronic respiratory diseases, oral health but also digital health solutions for NCDs and NCD in humanitarian settings.

Dr Leanne Riley
Head of the Surveillance, Monitoring and Reporting Unit, WHO Country
