

# Enara Chimeno

I am 23 years old and I am from Spain. I was diagnosed with Type one diabetes in July 2015 when I was 17 years old. Right now I am studying Social Integration and Special Education and I am working in the diabetes association in my city. I also teach kids with special needs. I love traveling, music and photography. I love finding those hidden places in big cities and taking photos of them. I think that being part of this network will teach me a lot but will also give me the opportunity to share my point of view with others so together we can work towards a common goal.
