

Katrine Marriel Karlsen

I am living with Type 1 diabetes and I was diagnosed in 2004. I am studying Entrepreneurship and Innovation and starting as a Trainee at the Norwegian Tax Administration. As part of the YOURAH network, I get to explore, participate, and take action across Europe! For me, equal rights across the world when it comes to insulin and diabetes equipment is important and, therefore, I wanted to join YOURAH. I want to fight for everyone's right to live a healthy, happy, and good life with diabetes – no matter where you're born or where you live.
