

Lejla Druškić

I was diagnosed with Type 1 diabetes in 2015. I work as a Customer Support Agent, but my interests include nursing, diabetes, dance, and cooking. Like every diabetic that has been a victim of very bad care from the healthcare system, the hope of making a positive change for my community is driving me to help all of the children that are going through the same. I joined the YLL to connect with people and learn new skills that I will need in my advocacy journey.
