

Georgios Skepetaris

I am currently studying at the Medical School of Athens. I was diagnosed with celiac in 2015. I was diagnosed with Type 1 diabetes in 2018. I have a younger sister who was diagnosed with type 1 in 2013. The Youth Leadership Lab is an opportunity for me to get to know people like me, closer to my age who deal with the same problems and have the same experiences as me. I also like to raise awareness about the issues of diabetes and celiac disease, because both of them are not so common in my country.
