

# Introduction to RWE Box

Shanghai GenomSeqCare Biotechnlogy Co. Ltd

#### **RWE Box: Enabling Real World Evidence Research**

A comprehensive electronic data capture, management and analytics platform to enable clinical, medical and real world evidence research. It is hosted in Cloud with a web based user interface.

- Study sites can enter data straight from source document into RWE Box
- Existing EMR or registry data can be integrated into RWE Box through custom import modules or RWE Box API.
- Study sites can check and resolve errors, inconsistencies, missing data, etc., in real time at data entry
- Communication, query guidance applied by DM to sites directly within RWE Box (rather than via email)
- Audit trail captures all changes made to an eCRF within RWE Box
- Study dashboard can be customized to report study highlights, and site/country/region recruitment status.
- Simple and advance searches allow users to build cohorts to answer specific scientific questions.
- Real time analytics enable users to quickly derive insights from clinical data.

#### **RWE Box EDC User Roles**

User Role	Privileges
Country Coordinator	Study dashboard presents summary of current Study with the specified country.
HCP/Investigator	<ul> <li>Study dashboard presents summary of current Study with the specified site.</li> <li>Submit Data: <ul> <li>Add and Manage Subjects</li> <li>View, Update, Remove, and Enter Data into CRFs</li> <li>Response to Queries</li> <li>Add and Manage Hard copy</li> <li>Activate ePRO and Manage ePRO</li> </ul> </li> <li>Investigator signature to sign off subject data</li> </ul>
Study Coordinator	Same privileges as HCP except Investigator signature.
Monitor/DM	<ul> <li>Study dashboard presents summary of current Study with specified sites.</li> <li>Monitor and Manage Data: <ul> <li>View Subjects</li> <li>View CRFs</li> <li>Study Audit Log and Source Data Verification</li> <li>View Hard Copy</li> <li>Raise Queries</li> <li>Manage Queries: export and update status</li> </ul> </li> </ul>

### **RWE Box Navigation - Login**

• After trainings, a user can access RWE Box by login into RWE Box web portal

 RWE Box provides access to all types of studies implemented at a site for which a user has access

Copyright@2016-2021 Shanghai GenomSeqCare Biotechnology Co., Ltd

#### **RWE Box Navigation – Select Study**

#### • Once in the RWE Box web site, select a study to access

#### **RWE Box Navigation – Patient Matrix**

- The Patient matrix page is the only page in RWE Box that provides a study event-oriented view of the expected and entered CRFs for the displayed patients in a matrix format.
- When working with the matrix at the Patient matrix page, a user can use study events checkbox dropdown list to select visits for the currently displayed set of patients.

#### **Query Management in RWE Box**

- Data, medical and coding queries are raised, reviewed, answered and resolved within RWE Box
- There are two main types of queries:
  - System queries: Automatically generated and placed in real time by RWE Box when a form is saved with data that is missing (left blank) or when a data point does not conform to a pre-specified edit check.
  - Manual queries: Raised by a Study Data Manager, Medical Reviewer or Study Monitor upon manual review of the data for clarification on or correction to a specific item.
- Query management status report summarizes data QC KPI.

### **Query Management in RWE Box - Raising Manual Queries**

#### **Source Data Verifications**

- Based on the Data Review Plan and Study Monitoring Plan, study team determines on which CRFs and fields to place Verify icon within RWE Box
- During site monitoring visits, study monitors check for Pending Verification tasks at the bottom of the study dashboard and on the patient dashboard marked "Tasks." Click "Pending Verification". A user will be directed to Task Center to handle SDV.
- Study monitors use Verify icon to document their reviews
- Study monitors can place manual queries for the site to review and address

#### Audit Trails – Form Level

- All changes that have made to a specific item on an eCRF can be viewed via the audit trail
- To access an item's audit trail, navigate to the completed form and click the Audit Trail icon.
- Audit trail will show each user who and when enters data, changes data, responds to queries, etc.

# **Entry Lock**

- HCP who entered the data can create Entry Lock.
- After the HCP creates an "Entry lock", the form enters the entry lock state, in which the form can't be edited, but a query can still be raised.
- If the HCP wants to edit the form again, he/she needs to click "Undo Entry Lock."

### Hard Lock

• When the HCP enters the "Entry lock" state on the form, only the monitor has the privilege "to execute the "Hard lock" on the form. After a hard lock, a query may not be added to the form nor can the HCP unlock the entry lock unless the monitor unlocks it.

#### **Electronic Signature**

- The RWE Box provides electronic signature capabilities that meet regulatory requirements.
- Any changes to the subject's electronic data within the system will result in the signature being destroyed in which case the investigator must sign again.
- A user who receives the signature requests through email can navigate to the Investigator Signature page in the task summary section of the study dashboard following the link in the email.
