

Renewing the fight: a call to action for diabetes and chronic kidney disease

*An online event by the International Diabetes Federation (IDF)
and the International Society of Nephrology (ISN)*

July 13 – 14:00-15:15 CEST

Rationale/Background

Diabetes and kidney disease impact an increasing number of people every year. Both conditions pose a significant challenge to health and sustainable social and economic development. IDF and ISN have come together to develop a policy brief to highlight the links between diabetes and kidney disease, and emphasise the need for a multisectoral approach to effectively prevent and treat both.

Format

75-minute online session on Zoom, including Q&A.

Target audience

Advocates, healthcare professionals and policymakers in the areas of diabetes and kidney disease.

Objectives

- Share the data on diabetes and kidney disease and explain the urgency to address both.
- Go through the main highlights of the IDF-ISN policy brief, stressing the policy recommendations.
- Feature the experiences of people living with diabetes and kidney disease.

Welcome
